

National Animal Control & Humane Officer Academy Covid-19 Response

Code 3 Associates and NACA will always have the safety and health of those involved in our trainings at the forefront. We have been, and will continue, to monitor the situation in regard to the impact of Covid-19. We feel it is an unnecessary risk for people to travel, and as such many agencies are not allowing their personnel to travel. We have cancelled classes through April 10th and are evaluating future classes as more information arises, as this situation has an undetermined time frame. Please stay tuned for more information, and we will try to post updates on both websites and through social media when we know more. Thank you for your understanding and continued interest in our training.
