

FOSTER MESSAGES:

Message 1:

Hello Nashville! WORKING FROM HOME this month? Why not pick up a furry friend to keep you company?! What could be better than some work break snuggles? As you practice social distancing and reconnect with nature or watch a lot of Netflix, please consider opening your home to a shelter pet! We have some wonderful dogs and cats that would love to crash on your couch with you or head out to explore nature! We currently have 60 animals in the shelter, with new animals entering the shelter daily.

As the #Covid19 situation continues to develop, MACC is urgently in need of fosters and adopters to #cleartheshelter. All adoptions will be FREE until further notice. Just stop by MACC from 10am to 4pm and pick out a pup to get cozy with! See who's available at PetHarbor.com and enter zip code 37211. Sign up to foster at <https://www.fosterdogsnyc.com/nashville>! All supplies are provided to foster parents. Thank you for your support!

If you haven't been to the shelter yet, attached you'll find an application that you can complete and email back to help save time.

Message 2:

Looking for a way to help during these difficult times but don't know where to turn? Look no further than welcoming a shelter pup into your home for an extended vacation! Metro Animal Care and Control is looking to place dogs into loving homes on a temporary basis until things begin to return to normal. Fostering will help to not only reduce stress for our dogs, but will ease the burden on our shelter staff and help them care for new animals coming into the shelter on a daily basis.

Sign up today at <https://www.fosterdogsnyc.com/nashville>. We can provide you with any needed supplies, and we wish to extend our heartfelt thanks for your support.

Message 3:

Thinking about adding a new member to your family but not quite sure you're ready to commit? Why not take one of our dogs on a "stay-cation" and see how it goes? You may just fall in love and make him or her a permanent member of your family! If nothing else, the dog can get a break from the daily grind here at the shelter and come back refreshed and ready to meet their fur-ever family. The information you learn about them can be passed on to potential adopters so that we can make the best match possible.

Sign up today at <https://www.fosterdogsnyc.com/nashville>. We can provide you with any needed supplies, and we hope to see you soon!
